

## *ITC134 WN19 Week 02 Class Exercises*

*Elly Boyd*

### ITC134 - Week 02 Class Exercises

1) How do we research prior to creating a report/white-paper/presentation

Put in a Google search

Ask more questions, get more details

Use internal databases like ebscohost or lexis nexus

Use the library

Contact people

Look for webinars or presentations

If it's hands-on, try to do it

For coding, check stackoverflow

Try Wikipedia

2)

### NOTES:

Luck – defined as: where preparation meets opportunity

“Don’t let your schoolin’ get in the way of your education”

- Mark Twain

Logging into Lynda:

lynda.com

if logged in to “linked in learning,” lynda.com might redirect to linked in learning.

Seattle public library: spl.org

King County Library System: kcls.org

Module 2:

“Servers and scripting” – more information....article/white-paper – not a requirement, but good idea to look

“History of the Internet” video – try to watch videos if possible

PIE – discussion (Point Illustration Explanation)

Git Essentials – Kevin Skoglund

## *ITC134 WN19 Week 02 Class Exercises*

*Elly Boyd*

A2 – group project – white-paper

Context of white paper – not the public...just this class

“If you do a good job, people will pay attention to you”

If you aren't impressed by your own work, how can you expect someone else to be

Put your best work out there.

Presentation doesn't need to be high tech. can be but doesn't have to
